Population	Various Internet sources				
Notes					
	Vaccinated = primary series	+ 1 or more boosters as re	ecommended.		
	Unvaxed death rates are out	of the total unvaccinated	population.		
	Vaxed death rates are out of people who are vaccinated.				
	Deaths between 4/15/21 and 7/15/21 are not counted, even though many of those people could have been vaccinated.				
	Unvaxed deaths for 11/21 to present used a population base of 5+ years old.				
	Unvaxed deaths for 7/21 and	d 9/21 used a population b	pase of 6+ months. This d	loes not affect any key	calculations here.
